

Global Citizen recommends the following health and safety protocols for volunteer and community engagement events on and around King Day:

- All volunteers and staff must wear a face mask over their mouth and nose
- Each project should designate an individual to oversee safety protocols
- All projects must provide hand sanitizer stations at their project, and require all volunteers to hand wash before and after their service. If this is not possible, volunteers must wear gloves. If volunteers are passing around materials, then everyone should wear gloves
- It is expected that all volunteers remain 6-8 feet apart, if they are not family or living in the same household.
- As guidelines change, please follow governmental recommendations.
- If you have any symptoms or believe you have come into contact with COVID-19, please do not volunteer to deliver. If you have pre-existing conditions, please take extra precautions and all those who still want to volunteer to do so safely and specifically accommodate those individuals.
